

## MegaPath Duet™ Phone and Internet

Save \$1000s a year on  
Phone and Internet service  
with MegaPath Duet\*

### MegaPath Duet Makes It Easy to Save

#### Get more ... at half the cost

Duet Phone and Internet from MegaPath is the lowest priced bundled offering of its kind, delivering full-featured, unlimited local and long-distance business-class phone service and lightning fast Internet service. Pricing? How does up to 50% less\* than competing providers sound. We've even eliminated the hassles of switching to MegaPath by guaranteeing there will never be any upfront costs or any downtime. In short, MegaPath is:

**Flexible** — you only pay for the number of phone lines you need and all the features are included

**Affordable** — no start up costs and better pricing than Verizon or AT&T bring you big savings with no upfront investment\*

**Easy** — we make it easy to switch your service and guarantee your complete satisfaction

### MegaPath Duet Technology for Quality and Reliability

MegaPath Duet relies on next-generation Voice over Internet Protocol (VoIP) technology that lets us deliver phone and Internet service over a single circuit. This reduces our network expenses, and we pass these big savings on to you. Unlike consumer-grade VoIP, MegaPath's Duet service never rides the public Internet so your phone calls are always crystal clear and the reliability, security, and overall performance are second to none.

### Get More with MegaPath

In addition to Duet Phone and Internet, MegaPath offers nationwide broadband connectivity and managed services for small businesses and larger — all the way up to Fortune 500 enterprises. From Virtual Private Networks (VPNs) to advanced security and remote access technologies, we enable businesses to lower costs, increase productivity, and maximize their competitive advantage. And, all MegaPath services are backed by our premier service level agreements and 24x7 technical support.
